

KARPENTER by IDE STUDIO

Eclectic contemporary furniture designs in solid 100% FSC reclaimed teak.

Inspired minimalist ideals, **Karpenter** reveals its clean proportions with stylish simplicity.

A Marriage of Contrast

After careful selection, the highest-grade old reclaimed teak wood timber are precision machined to exact specification for long-lasting durability.

Then skilled craftspeople, using old world carpentry techniques, add the human touch to hand-assemble, sand and finish each piece.

A contemporary design aesthetic and fine European hardware and accessories all combine to bring you elegant furniture created for today's modern lifestyle.

KARPENTER by IDESTUDIO

Karpenter is all about design, creativity, and high quality production through modern management practices.

Using FSC certified recycled teak wood and environmentally safe materials, reflects our commitment to operate a strong company with a conscience. It also gives your customers greater peace of mind.

As manufactures with complete in-house design and production teams, we can assure you of the finest results.

Our European managers work closely with a creative team of designers and craftspeople to maintain high standards throughout the company.

Clients all over the world appreciate our proven, reliable manufacturing capability.

If you are looking for high-end production, in modern, contemporary furniture designs, browse through our catalog.

Awarded the Forest Stewardship Council's Certification for 100% recycled teak wood in May 2008.

Karpenter Technical Specifications

All Karpenter furniture is made from the top range of **100% recycled teak wood**, hand selected for the best colour and quality, and previously professionally kiln dried.
The entire process from designs and samples through production is made in-house.
The wood is first machine cut for added stability and durability.
Then skilled craftspeople assemble, sand and finish each piece of furniture by hand.
Very light cracks or splits could appear on top and side panels or legs at any time.
This fact has to be considering as a consequence of the natural seasoning process of the wood, accordingly to the diverse environmental humidity conditions.

Protective Coatings

The top surfaces of furniture that may be exposed to water, food, drinks and so on are sealed with a non-toxic protective coating that does not change the colour of the wood.
The outdoor lines are also sealed against rain and sun damage.

Shelves

All cabinet shelves are adjustable and removable.

Hardware and Accessories

Precision Italian and German products keep Karpenter's drawers gliding smoothly, while doors and drawers open with a soft touch, “ spring catch “ system.

Karpenter Available Finishes

Ashes - natural teak wood with hint of grey tones, sanded smooth

Walnut - a rich, chocolate brown colour, sanded smooth

Stone - a soft grey stone colour, sanded smooth

Defibré Ashes - natural wood colour, highly textured surface

Defibré Walnut - a rich, chocolate brown colour, highly textured surface

Defibré Stone - a soft grey stone colour, highly textured surface
